

Sergio Herrero

Full Stack Web Developer

👤 Profile

In summer 2018, I joined a JavaScript full-stack web development bootcamp in order to get into the tech industry. I'm self-taught in other fields and have founded a hardware company before. I am excited to learn just about anything to satisfy my curiosity. I would like to join a company with a meaningful product, with the personal goal of becoming a vital piece for your success.

🎓 Education

Full Stack Web Development Bootcamp, SPICED Academy, Berlin

May 2018 – August 2018

🏠 Projects

Some of my projects (visit [GitHub](#) for more)
